ACCLAIM:

"I met Diana at the Wyndham General Conference, we struck up a conversation about the Wyndham Green program and how I had made the Green Initiative my properties goal for the upcoming year. Her enthusiasm for the topic was infectious only outdone by her knowledge of how many unique and sometimes simple ways to achieve "Green" successes. I have really enjoyed our conversations since, explaining how the program has been so well received by guests and staff alike. I feel very fortunate to have worked with Diana and appreciate the time and energy she put into our property. They have made an impact both personally and environmentally. Thank you."

- General Manager - Hawthorn Suites by Wyndham
